

First Destination Survey

Annually, UCS surveys May graduates receiving their bachelor's degrees from UNC-Chapel Hill regarding their initial career outcomes. First Destination Survey captures information regarding how new college graduates fare in their careers within six months of graduation. The annual initiative provides clear, concise, and consistent data on the outcomes associated with a college education on a national scale. Outcomes include: types of employment; additional education; still seeking either employment or further education; and starting salary for those employed full time. More information about First Destination Survey is available [here](#) [1].

If you are a May 2020 undergraduate graduate, please take First Destination Survey 2020 [here](#) [2].
