Wondering how your major might impact your career options? Curious how you can major in what you love and build experiences that give you access to a variety of professions? Gaining awareness of how majors can impact career paths is a crucial aspect of career decision-making! Come learn from and network with professionals across a variety of majors! Panelists will share how they picked their majors and how that impacted their respective career paths. You'll find that in some cases, majors directly align with what professionals are doing now, and in other instances, not so much. Learn tips about how you can make the most of your time at Carolina, and regardless of what your major is, so that you will have a solid launch pad to enter into a variety of career fields! After this workshop you will be able to: 1. Recognize and reflect on the role of one's own values, feelings, interests, abilities and multiple facets of identity in shaping one's thoughts and actions (Carolina Excellence Competency on Self Awareness, and NACE Career Readiness Competency on Career Management). 2. See how opportunities outside of the classroom can drive career success (Carolina Excellence competency in Public Service and Creativity). 3. Identify ways to network with alumni in order to learn more about various career paths (Carolina Excellence Competencies on Interpersonal Development and Communication and NACE Career Readiness Competency on Career Management).

Inclusive Workplace Leadership Series [18]

2021
12:00 AM 12:00 PM
Location:
Virtual
Type of Event:

An inclusive workplace is one where everyone is valued, respected, and treated fairly. These workplaces breed trust, engagement, and high-performance—which usually means high-rewards and high-compensation! University Career Services put together a series of workshops to help you understand how companies utilize diversity, equity, and inclusion (DEI) practices to accomplish this; and to also learn how to evaluate a company’s DEI practices and values. Top innovative organizations [19] that recruit at UNC Chapel Hill and elsewhere are seeking students with a DEI Mindset as they enter the workforce through internships, full-time jobs, and even entrepreneurship. These organizations are increasingly embracing DEI values and practices [20]; as well as a Stakeholder Capitalism approach to business—in effect, a people, planet, profit philosophy. Regardless of your race, gender, sexual orientation, social class, religion, etc.?where you decide to work and the type of workplace you thrive in can have a huge impact on your career trajectory, well-being, and financial security. Don’t miss the virtual workshops below!
