ImaginePhD

Developed by experts from over 50 universities, ImaginePhD offers a unique platform that teaches PhDs about popular job sectors, search strategies, and how to transfer skills across settings. Like the related GCC member project myIDP, with 100,000+ users, ImaginePhD has the potential to transform PhD career planning.

ImaginePhD users are able to:

- assess their career-related skills, interests, and values
- explore careers paths appropriate to their disciplines
- map out steps for degree completion alongside career and professional development
- Log-in to the UCS site for access
