Career Peers are undergraduate and graduate students who play a fundamental role in our office. They meet with students during drop-in hours and appointments to critique application materials and work in teams to facilitate events for the student body. Check out our class for the 2019-2020 school year!

What do you like about being a Career Peer?
For me, I love the impact we as a team are making on our campus, as well as the support and professional development that the UCS counselors provide for us. I have always wanted to help people in any way that I can, and being a Career Peer allows me to help my fellow students in times of stress and vulnerability. Trying to express yourself in a one page document is not an easy thing to do. Further, I have gained so much experience and transferrable skills that will apply to just about any career. The counselors are amazing and are always willing to listen to me when I'm stressed, overwhelmed, and just about any other emotion you can think of. UCS truly is one of the best places to work on campus or really anywhere else!
