Optometry Schools

There are no colleges of optometry in North Carolina. The following link will take you to a website that summarizes the requirements for all the various optometry schools across the country: [Optometry School College Prerequisites](https://careers.unc.edu). [1]

However, the state of North Carolina has contracts with three of the 16 colleges: Univ. of Alabama at Birmingham; Pennsylvania College of Optometry in Philadelphia; and Southern College of Optometry in Memphis. The courses required for entry into these schools differ somewhat depending upon the school. All require:

- English 101, 102
- Math 231
- Biol 101, 101L
- Chem 101, 101L, 102, 102L, 241, 241L, 261
- Phys 114, 115
- Psyc 101
- Stat 151 or Psyc 215
- Micro 251 or 255

Additional requirements by school are: (R = Required; X = Recommended)

College Major

There is no specific major that is required, or that is 'best' to pursue. Optometry schools are looking for well-educated and well-rounded individuals.

Testing Requirements

Most optometry schools require the Optometry Admissions Test (OAT) [2]. The usual time to take it is in the spring semester (usually February) of the Junior year. Students should prepare for this test.

Application

Applications are submitted through OptomCAS [3]. The time to start is in the summer before your last year in college, with the application opening in July.

Extracurricular Activities

Extracurriculars are a very important part of the applicant's materials. Some volunteer experience with an optometrist is a must, and a letter of recommendation from an optometrist is usually required.
