

North Carolina Star Jobs

Star Jobs is a new and simplified way to help you identify promising occupations. Star ratings are assigned based on wages, projected growth rate, and projected job openings, and each occupation has a rating of between 1 and 5 stars. Occupations with 5 stars are considered to have better career prospects than occupations with fewer stars. For more information on Star Jobs, the Star Jobs methodology, and statewide brochure, click here. You can access all 16 regional brochures. The Star Jobs page allows you to search more than 700 occupations in North Carolina by geography, wage, education, and career cluster. You can also sort data by clicking on the triangle icon on the column header (such as Stars or Title header). Detailed occupational information are available by clicking the green plus sign (?+?) next to the occupational title.
