Diversity Recruitment Resources for Students

We realize that students from historically underrepresented and disadvantaged communities (race/ethnicity, low-income, and first-generation) can sometimes be

overwhelmed with job search resources. How do you know which companies will truly embrace you for your authentic self? How do you know which companies have a good track record with hiring diverse people that look like you or share your experiences? We want to help facilitate that process for you so we have created a [page with links to several job boards and resources](#) [5] our diverse student populations. This is not an exhaustive list of all the resources that are available, however it's a good start to help you understand what's available, and to know what questions you should think about when talking with career advisors, employers, and alumni.
