3. Invitation to Pursue an MD and/or PhD at Duke-NUS Medical School
Duke-NUS Medical School’s former Vice Dean of Education, Professor Dr Robert Kamei, will be visiting University of North Carolina on March 20th, Monday at 5:30 pm. Professor Kamei will share more about the MD and/or PhD degrees offered at Duke-NUS.
Duke-NUS Medical School is Singapore’s first and only US-style graduate medical school; a partnership between Duke University School of Medicine and the National University of Singapore (NUS). Duke-NUS prepares doctors, scientists and clinician-scientists to practice and improve the practice of medicine.
through the MD, PhD, and MD-PhD track. Since the first intake in 2007, the School has attracted many students from over 26 countries.

The School resides on the main campus of its partner in academic medicine, Singapore Health Services (SingHealth) – the largest healthcare group in the country that collectively delivers multi-disciplinary care among 42 clinical specialties across a large network of hospitals, national specialty centres and polyclinics.

Students open to pursuing a graduate programme and career in Singapore, please register your interest to attend the session early. Once again, the information session is on March 20th, Monday at 5.30 pm. The info-session will be held at Hanes Hall 239A/B.

4.
A Helping Hand (AHH), a nonprofit serving seniors and adults with disabilities, hosts a Service Learning Internship Program for college students and graduates interested in psychology, healthcare-related or Social Work careers. Our recent class of Service Learning Interns logged nearly 6,000 hours of service to older adults, assisting with transportation and providing care in the home setting.
Interns gain direct geriatric care experience, develop strong interpersonal and leadership skills and work with a diverse client base. They assist clients with a wide range of issues including impaired vision or hearing, limited mobility, and cognitive losses. Interns also will become familiar with conditions such as Alzheimer’s disease, cardiovascular disease, diabetes, Parkinson’s disease and more. Participants may also assist younger adults who are disabled due to multiple sclerosis, recent surgery or an automobile accident. Interns learn about family dynamics, the role of the family caregiver, and social isolation. Individuals also will have the chance to accompany clients to medical appointments, understand the importance of the patient/provider relationship and learn how to advocate for a patient.

6.
ACERIP is a UNC club that offers EMT-B classes each semester for Carolina students hoping to earn their EMT-B certification, which is a great way to get patient contact hours for PA and Med school. In order to help interested students take our class, ACERIP is offering scholarships for summer 2017, that cover the
full price of the class and the books for students with financial need. Our classes meet on Tuesday, Wednesday, and Thursday nights from 6-10PM and prepare students to take the EMT-B state exam as well as the National Registry exam for students who may want to work out of state. The application deadline is March 31st, 2017. Apply at www.acerip.org/emt-scholarship/

7. Please let anyone who is interested in exploring a career in pharmacy know the UNC ExploRx Pharmacy Program on the Asheville Campus is scheduled for Saturday, April 29 (in Karpen Hall) on the UNC Asheville Campus), 8:30 am – 2:15 pm. ExploRx Pharmacy is a dynamic and multifaceted one-day program on the Asheville campus designed to teach participants what pharmacy is, illustrate what a pharmacist does, and share tips and strategies about submitting a strong pharmacy school application. The program is free, but participants must register. Get more information and register here Contact David Mitchell at david_mitchell@unc.edu with questions.
