CAREER EDUCATION WORKSHOP

LEAN INTO YOUR STRENGTHS

During this interactive session, we will engage in opportunities to build greater awareness of your talents and learn how to apply them to achieve your goals. Understanding your strengths will support you as you explore career options, work in teams, and find strategies that are best suited to you and what you already do well. By the end of the session, you will commit to one next action step you will take in applying your strengths towards your goals.
