1. Ultrasound “patients” needed – TOMORROW!
2. University of Queensland Ochsner Medical School Campus Visit – NEXT WEEK
3. UNC Professional Master’s Program
4. Academic Advising – Major Exploration Workshops
5. Advocates for Grassroots Development in Uganda (AGRADU)
6. UNC American Mock WHO (AMWHO): Executive Board Applications
7. P/T job with UNC Hospitals Diabetes/Endo Clinic
8. A Helping Hand Internship

1. Ultrasound is a futuristic diagnostic tool. We need volunteers who will serve as subjects for the teaching of ultrasound this Saturday, roughly from 1:00 to 3:30 PM in Bondurant Hall on S. Columbia St. This is part of the regional meeting (80 attendees) of the American Assn of Clinical Anatomists with ultrasound teaching faculty from Emergency Medicine, Medicine, Radiology, etc., at UNC, Duke, Campbell, ECU, and Wake Forest. Interested students can contact me at kogilli@med.unc.edu.
Kurt Gilliland, PhD.
Assistant Professor, Dept. of Cell Biology and Physiology
Assistant Dean of Curriculum and Evaluation, School of Medicine

2. ON CAMPUS: Meet Dr. The Volpe, an Admissions Advisor from The University of Queensland School of Medicine (Brisbane, Australia) Ochsner Clinical School (New Orleans, LA). Wed. Oct. 19 from 3.30-5.30 PM, Alpine Bagel, Student Union
Look for UQ Ochsner Table Display!
http://www.mededpath.org/about.html
The University of Queensland School of Medicine Ochsner Clinical School offers an international medical education with outcomes comparable to U.S. medical schools. In addition, the global experience the program provides has proven to be a unique advantage for students in the US Match.
The Program
• Two years of basic sciences and extensive early clinical training at The University of Queensland School of Medicine in Brisbane, Australia
• Two years of clinical training at the UQ Ochsner Clinical School in New Orleans, Louisiana
• One entering class per year (Australian Academic Calendar February – November)
Comprehensive Support for US Match
• USMLE Prep offered beginning Year 1
• Residency Boot Camp and advising beginning Year 3
• Research opportunities
• Dedicated Oschner cohort advisors all four years
Outcomes Equivalent to Top U.S. Medical Schools
• USMLE Step 1 and Step 2 Pass Rate Similar to US Medical Students
• 93% Residency Match 2016 | 92% Overall Residency Match

3. UNC Professional Science Master’s
Interested in training for a science career? Join one of our webinar sessions. Connecting Science with Business.
4. Major Exploration workshops will be presented by both an Academic Advisor and a Faculty member from that department. The Academic Advisor will offer information on resources to help with course planning for next semester and beyond. Department Faculty will help you understand what is required for this major and offer insights into about opportunities in the department to explore and expand your knowledge. Ideas regarding research, study abroad opportunities, graduate school and career directions will be explored. This workshop will fulfill your First-Year Academic Advising requirement and lift your hold.

5. Advocates for Grassroots Development in Uganda (AGRADU), is a Campus Y committee that fosters sustainable partnerships with four different community based organizations in Uganda. We send UNC students to intern with these amazing organizations every summer, and are currently accepting applications! Students have the opportunity to work with organizations related to rural healthcare, social business/women’s empowerment, HIV/AIDS awareness, or domestic violence prevention. If you’re interested, check out the application (due on October 25th) at: https://goo.gl/forms/YQNggLNtzypcs6Ag1, and feel free to email us with any questions at uncagradu@gmail.com or check out our facebook page!

6. UNC American Mock WHO (AMWHO): Executive Board Applications
AMWHO is an authentic simulation of the World Health Assembly, the sole decision-making body of the World Health Organization. AMWHO offers participants the ability to discuss global public health issues in a political, social, and economic context. AMWHO is the very first of its kind in America. You can find the application link below. Applications are due October 16th, 2016 at 11:59 PM.

7. UNC Hospitals Diabetes and Endocrinology Clinic at Meadowmont is looking to hire a student for a part-time position as the Administrative Assistant for diabetes education. Tasks include scheduling patients and setting up for diabetes education classes, ordering supplies from medical representatives, faxing,
making phone calls, and more. It is a great opportunity to receive clinical experience if you are planning on entering the medical field (i.e. pre-med, pre-nursing, etc). Interested applicants must be either sophomores or juniors willing to commit at least a year or two and must have a car for transportation. Must be able to work at maximum 10 hours a week, work independently and efficiently, and be very organized. Hours are flexible according to class schedule, but you must be able to come in during the clinic's normal working hours. If interested, please send a resume and any questions/concerns to kgrover@live.unc.edu. Thanks!

8.
Service Learning Internships: Spring 2017
A Helping Hand (AHH), a nonprofit serving seniors and adults with disabilities, hosts a Service Learning Internship Program for college students and graduates interested in psychology, healthcare-related or Social Work careers. Our recent class of Service Learning Interns logged nearly 6,000 hours of service to older adults, assisting with transportation and providing care in the home setting. Former AHH interns have successfully launched careers as physicians, nurses, social workers, occupational or physical therapists and public health professionals. Others currently are enrolled at top-ranked schools including Duke University, Georgetown University, Harvard University, Johns Hopkins University, UNC-CH and Wake Forest University. Interns gain direct geriatric care experience, develop strong interpersonal and leadership skills and work with a diverse client base. They assist clients with a wide range of issues including impaired vision or hearing, limited mobility, and cognitive losses. Interns also will become familiar with conditions such as Alzheimer’s disease, cardiovascular disease, diabetes, Parkinson’s disease and more. Participants may also assist younger adults who are disabled due to multiple sclerosis, recent surgery or an automobile accident. Interns learn about family dynamics, the role of the family caregiver, and social isolation. Individuals also will have the chance to accompany clients to medical appointments, understand the importance of the patient/provider relationship and learn how to advocate for a patient. [http://ahelpinghandnc.org/opportunities/internships/](http://ahelpinghandnc.org/opportunities/internships/)
Please visit [http://www.ahelpinghandnc.org/internship.php](http://www.ahelpinghandnc.org/internship.php) to apply for this opportunity. Priority will be given to applications received by December 20.
