  **Durham, NC 27713**
  
  **(919) 930-5957**
  
  **Daniel.allen1@navy.mil or albert.d.ford@navy.mil**

2. The Clinical Information Manager (CIM®) will provide scribe services at the direction of a physician or practitioner (Nurse Practitioner or Physician Assistant) allowing the physician or practitioner to spend more time with the patient, work more productively, and produce accurate and thorough documentation. A CIM® does not act independently, but documents the previously determined physician or practitioner’s dictation and/or activities into the electronic medical record (EMR). CIMs help facilitate data flow by retrieving or locating diagnostic test results and facilitate patient flow by
monitoring the patient’s stay, i.e. informing the provider when test results are back, if the results aren’t back following up to ensure they are completed. CIMs review the physician or practitioner documentation for coding criteria and assist in selecting the appropriate codes. This is an outstanding opportunity for pre-med, physician assistant and nursing students, EMTs or any other candidates interested in a career in healthcare.

Required Education & Work/Volunteer Experience:

- Bachelor’s degree preferred
- Biology coursework at the undergraduate level or above required; Anatomy and Physiology and Medical Terminology coursework preferred
- Relevant work experience (1 or more years) in the healthcare field may be considered in lieu of the education and coursework requirement
- At least 100 hours of work, volunteer or shadowing experience in the healthcare field required;
- Experience in a direct patient care environment preferred, i.e. Emergency Medical Technician, physician shadowing, clinical technician in a hospital, or a medical assistant in a doctor’s office, etc.

Skills:

- Strong communication skills: grammatical, spelling, and verbal
- Excellent listening and note-taking skills
- Computer proficiency and the demonstrated ability to type 60 words per minute or above (adjusted for errors)
- Excellent organizational and time management skills
- Ability to work day, evening, overnight hours and weekend and holiday shifts
- Ability to remain calm in a fast paced, at times stressful environment
- Detail oriented with proven ability to work effectively under conditions requiring accuracy
- Basic understanding of medical terminology and general medical knowledge

Our Company:

Emergency Medical Associates (EMA) and its affiliated entities is a highly integrated healthcare company that offers emergency medicine, hospitalist, urgent care and practice management solutions to hospitals and health systems regionally in New York, New Jersey, North Carolina, Rhode Island and Pennsylvania. Headquartered in Parsippany, New Jersey, EMA is a privately held, physician-owned partnership employing over 1000 employees. EMA has been delivering its superior emergency medicine and urgent care management services through its integrated healthcare management solutions since 1977 and pioneered the use of CIMs over 15 years ago.

EMA is one of the largest democratic ED practice organizations and is widely recognized for clinical excellence, as well as the ability to increase patient volume, turn around ED operations, and improve and sustain patient satisfaction.

Additional Information:

All hospital sites are 24 hour operations. As a CIM® you will work on a rotational shift basis, this will likely include overnights hours, weekends and holiday shifts.

We offer a collaborative team based culture with a highly competitive compensation and benefits package including an outstanding 401(k) match, profit sharing plan, medical, and vision, dental, life insurance, and tuition reimbursement program. All CIMs are enrolled in a comprehensive training program, providing the knowledge and skills to succeed in their role.

To apply, please visit: www.ema.net/cims

3.

The clinical trials team at the Carolina Institute of Developmental Disabilities in Carrboro is looking for an undergraduate student interested in a summer internship as a clinical research assistant. The applicant would assist with a randomized, placebo-controlled clinical trial of a nutraceutical
(sulforaphane) for the treatment of young men with autism spectrum disorder. Responsibilities would include obtaining training in responsible conduct of clinical research (CITI training), coordinating and scheduling study visits, preparing research materials, data management, and directly assisting the study physician and associates in research-related tasks. Physician shadowing opportunities exist for interested applicants as well. This is an excellent internship opportunity for students interested in careers in medicine, psychology, psychiatry, neurodevelopmental disabilities, or clinical research. This is a part-time (approximately 20 hrs/week), unpaid position that includes a 1-week training period (June 19-23) followed by a 4-week internship (June 26-July 28). Hours can be flexibly arranged. No night or weekend responsibilities.

To apply for this position, please contact Laura Martin at laura.martin@cidd.unc.edu by 5/26/17.

4. The Durham VA Medical Center (DVAMC) is looking for a Research Support Associate to manage an office and assist with clinical research activities led by the Principal Investigator, Dr. Stephen Freedland, and his associates in his urology research lab. This includes office management, staff hiring, preparation of IRB and regulatory paperwork, management of part-time study personnel, and performing select research tasks.

Critical Element 1: Oversee and manage research office
Critical Element 2: Lead staff hiring, onboarding, and exit procedures
Critical Element 3: Assist in preparing IRB and regulatory paperwork for clinical research performed by the PI at the DVAMC
Critical Element 4: Supervise study personnel involved in patient enrollment and data abstraction
Critical Element 5: Perform study-specific research tasks

The above statements describe the general nature and level of work being performed by individuals assigned to this classification. This is not intended to be an exhaustive list of all responsibilities and duties required of personnel so classified.

**Required Skills and Experience:**
Requires an organized, task oriented, deadline sensitive individual with a minimum of a Bachelor’s degree. Candidates must be able to deal diplomatically and professionally with administration, faculty, clinical and lab personnel, and subjects. Demonstrated leadership, professional initiative, teamwork abilities, strong interpersonal relationship skills, excellent written and oral skills, Windows, Microsoft Word, Excel, Access, editing, and proper telephone etiquette skills are required for this position. Prior experience with clinical research, FDA regulations, and HIPAA considerations is preferred. Salary will be commensurate with experience level.

Employees work for the Institute for Medical Research and will have an appointment at the Durham VA Medical Center. Please visit www.imr.org for information about employee benefits. We do not sponsor applicants for work visas. We are an equal-opportunity employer.

**To request additional information, or to apply, please send cover letter and resume to rsa-job@searchdatabase.org with the subject line “RSA Job Application”.

5. We trust that you are enjoying a lovely spring! We want to let you know that Summer Open House at the West Virginia School of Osteopathic Medicine (WVSOM) is scheduled for Friday, June 23, 2017. Online registration may be accessed at WVSOM Summer Open House. We would greatly appreciate your assistance by informing your students of this upcoming event before they leave campus. If you have questions about Open House, please feel free to contact us at the numbers and e-mail addresses listed below. Again, your assistance is greatly appreciated.

Donna Polk, M.Ed.
The VMCAS 2018 application successfully launched this morning. The deadline is: September 15, 2017 @ 12 Midnight Eastern Time. We urge you to remind your veterinary school applicants that their goal should be to have a verified application by the deadline and NOT to wait and SUBMIT by the deadline. Those that wait until deadline to submit have a far less chance of achieving a fully complete application. On behalf of AAVMC and the VMCAS 2018 teams, we wish you all a successful and fulfilling application cycle.
