Medical Dialogue is a UNC student organization that fosters a holistic approach to medicine. The club provides small seminars about medicine as well as research and volunteering opportunities related to potential careers in medicine. We also have a growing library of MCAT prep books that our members can check out. Like us on Facebook at <https://www.facebook.com/uncmedicaldialogue/> or check out our website <http://www.mdunc.com> to join and stay updated! Dues are \$5 a semester and we will be collecting them in the pit on certain days. If you have questions, send us a message on Facebook

2.

Greetings from the NC-HCAP Health Careers Club!

Have you ever wondered which health related career is right for you? Are you looking for more exposure to various healthcare fields?

If you're interested in any health related careers, volunteering, shadowing, or leadership opportunities, then come out to our first general body meeting this Wednesday (September 28rd, 2016), at 5:30 pm in Room G010 in the Genome Science Building! All are encouraged to join us. There will also be PIZZA! This will be a great opportunity you don't want to miss to learn more about our club and the events/activities we have planned! And don't forget to bring your dues (\$20 for the entire year, with a club t-shirt), if you have them.

If you have any questions, feel free to email us at: unchealthcareersclub@gmail.com

Jasmine Shah

NC-HCAP Health Careers Club Co-President

UNC Chapel Hill Class of 2017

The Health Humanities Journal is in full swing for the Fall semester and we are now accepting submissions! The main purpose of this journal is to inspire, encourage and facilitate interdisciplinary thinking and collaborative work while exploring ideas that relate to health, illness, caregiving and medicine. This publication allows for dialogue, meaning-making and multiple representations of the body, health, wellness and experiences with the medical system.

Submissions are being accepted until October 9. For more information about what you can submit and how to submit, check out our website at <http://hhj.web.unc.edu/>.

4.

Hey, everyone! I am service co-chair of CPMA and I am partnering with Phillips Middle School to create a mentor program with seventh and eighth graders. I am currently involved with their After School Care Program and we are looking to develop a one-on-one interaction with the students there. This interaction will serve as a way for the middle school student to ask questions about homework or life in general. It will also allow college students to serve as role models for them, which will encourage them to do well in school and pursue a college degree in the future.

It is a time commitment of about 2.5 hours a week, starting around 3 o'clock, and the bus system takes you directly to the school or if you have a car, that would be great too for volunteers to carpool! Also, this program allows you to go to the school any day of the week, depending on your schedule. However, these kids are depending on you and truly look forward to seeing you each week; therefore you **MUST** go on your assigned day, no excuses. Please do not sign up unless you can dedicate this amount of time once a week.

You will be paired up with a student depending on your strengths and what they are specifically struggling with in school. Wednesday afternoons, there is another group present at the school, so try to sign up for different days, but if that is the only day you are available, that is alright! I have also attached a link for a Google Document to this announcement, so please let me know you are interested that way. There is also some paperwork the school requires you to fill out and a brief training session. However, other than that, the process is super easy! I love hanging out with these kids and hopefully this mentor program will encourage these kids to achieve and succeed in school! Thanks so much!

5.

Looking for a mentor to help guide you through your pre-med years? Apply to get a mentor through the Medical Mentors Program at UNC School of Medicine! We match interested undergrads with available medical students at the beginning of each academic year. After that, mentors and their mentees can choose exactly how they want to work together: from e-mail conversations to lunches to visiting medical school classes. **Apply now to get a mentor at <https://goo.gl/forms/rsqPQcjyeDNCzmsu1>. The deadline to apply is Friday, October 7th at 5:00 pm.**

6.

Hello Future Pharmacists!

Undergraduate Students for Diversity in Pharmacy invites you to our first event of the semester entitled "Getting into Pharmacy School: Do's and Don'ts," on September 26th at 6:00pm in Beard Hall Room 102. This is your chance to meet Mimi Lewis, an admissions representative from the Eshelman School of Pharmacy. She will cover basic questions about the admissions process, interview styles, and the NEW curriculum. Come out to ask all of your questions and gain insight on what to expect before pharmacy school. We will also be announcing our new executives, so come out to meet them. We will have pizza for you guys. RSVP here: <http://doodle.com/poll/2as3kyzg76eik87u>.

Lastly, if you haven't paid dues yet, please bring them to this meeting. It is \$15 for the year or \$10/semester. Let us know if you have any questions, and hope to see you all there!

USDP Executive

About Project Horseshoe Farm

Project Horseshoe Farm (HSF), founded in 2007, is a 501(c)3 nonprofit organization based in Greensboro, Alabama that offers service and support programs for seniors, people with mental illness, and at-risk children. HSF also offers education and leadership development opportunities for current undergraduates, recent college graduates, and for medical students and medical residents. The HSF staff, volunteers, and students work together with our community and partners to pursue the HSF three-part mission of *service, community, and education/leadership development*.

APPLICATION PROCESS: The 13-month Fellowship begins in June and ends in July the year after. Internships occur during the summer, fall, winter, and spring. Specific application deadlines for the 2016-2017 school year have not yet been decided. Additional application information can be found at www.projecthsf.org

PROJECT HORSESHOE FARM

9.

Cary Vision Care, a private optometry office located in Cary, is seeking 1 or 2 paid interns who can work 2 to 3 days per week as an optometric technician. This position will begin in mid September.

This is an ideal position for a Pre Optometry or Pre Health students that are looking for experience in a medical office and would be a great gap year experience.

Please send resume and cover letter along with hours available to Dr. Jeff Stikeleather at : jeff@caryvisioncare.com.

10.

[SAGA Innovations](#) recruits the best and brightest young professionals to work in high-need urban public schools. As a SAGA Fellow, you will tutor and mentor a cohort of 14 students for 10 months (one academic year). SAGA tutoring is primarily focused on algebra 1 and geometry, and occurs every day as a part of the student's regular school day as a graded course for credit. The tutorials are conducted in groups of 1 Fellow: 2 students at a time, allowing for the students to receive daily individualized instruction, with the Fellow effectively serving as the student's teacher for that period. Data shows that students who participate in SAGA tutorials learn one to two more years of math in a single school year than students who do not, see improved standardized test scores, and increase their grades in non-math subjects.

SAGA Fellows work closely with the school administration, teachers and parents to help students grow and succeed academically. Daily, consistent tutoring sessions give SAGA Fellows the ability to form close relationships with their students and learn their strengths and needs. Fellows are not just tutors, but mentors and advocates who give students what they need to be successful in high school and beyond.

The SAGA Fellowship is the ideal opportunity for graduating seniors who wish to dedicate their careers to education reform, policy, or social justice, and who wish to gain invaluable experience in a high-need school with students, staff, and families. The Fellowship is also appealing to students who wish to commit themselves to challenging, yet meaningful, work in the gap year before graduate or professional school.

Academic Engagement Night- Monday, October 3rd: 4pm-7pm

#AcademicEngmtNight Follow us on Twitter: @UCB_News

UCB is a global biopharmaceutical company. We focus on discovering and developing innovative medicines and lateral solutions that can transform the everyday lives of people with severe diseases of the immune system or the central nervous system. Our patients inspire us to think laterally and generate exciting new ideas that can transform their future; therefore we look for people with passion to deliver the resulting solutions to the market.

Our site in RTP is an integral part of UCB's vision to provide superior and sustainable value to patients with severe diseases, as we generate and deliver critical information that allows patients and their healthcare professionals to make informed decisions on their well-being.

UCB is engaging with local universities and sharing our vision to provide solutions for patients with severe diseases. We are offering this opportunity:

- For students to learn more about clinical research and drug development in the immunology, bone and CNS therapeutic areas.
- To gain a better understanding of core competencies needed to gain employment in this industry upon graduation
- Network with stakeholders/hiring managers to discuss summer internship opportunities at UCB

This will be open to the *first 25 students* (undergraduates and graduates) in pharmacy, biotechnical, clinical research, and other health sciences majors.

Tentative Agenda:

4:00- 4:30: Check In

4:30-6:00: Speakers

Sr. Talent Acquisition Manager

Head, Center of Excellence, Project Management and RTP Site Leader

Safety Portfolio Management Lead

Head US Biostatistics

Medical Director, Physician Development & Excellence

Head of New Patient Value Mission

Medical Solutions Excellence

6:00-7:00: Social/Dinner w/ RTP Management

Location: RTP Site

8010 Arco Corporate Dr.

Raleigh, NC 27617

** Please note transportation will not be provided by UCB.

**Students must be currently enrolled in a graduate or undergraduate program without an impending graduating date of Spring 2016- preferably in a health sciences related major.
